

Bosch 3 channel Ignition module BIM203

Brand: Bosch Motorsport

Product Code: BOS0227100203

Availability: 7 Days

Weight: 0.10kg

Dimensions: 10.00cm x 5.00cm x 2.00cm

Price: \$367.50

Short Description

Three Channel power transistor module that works well with our BAE series ignition coils

Description

This module is an external ignition power stage capable of supplying up to four non-transistorized ignition coils. The IM input signal should be supplied by an ECU with ignition signal outputs in the range of 10 to 20 mA, e.g. MS 4 Sport. The IM unit combines the robustness of a high quality production part with good electrical performance to provide an ideal solution for adapting non-transistorized coils to an ECU without internal ignition driver stages.

Specifications

- - 3 Channel power transistor module
- 7-pin Jetronic connector
- Use mating connector kit AMP827580-1
- OE quality and performance
